STATINTL

This will acknowledge with thanks the receipt of your letter of 8 August answering two communications we addressed to you on 13 and 26 June respectively.

It is difficult for us to give you any details by letter as to the possibilities of interesting you in employment with this agency because our own information concerning you is in itself so scanty. Would you mind, in consequence, completing one of the two Personal History Statements enclosed and also the Appendix thereto. The second Personal History Statement is to be retained for your file if you so desire.

We note that you are departing for Princeton shortly and that you expect to remain there for some little time. Upon receipt of the forms we will communicate with you further at Princeton and arrange for interviews here at your convenience.

Sincerely yours,

STATINTL
